

The Laboratory Dentists Trust

At Kuwata Pan Dent, we build meaningful partnerships with dental professionals, while meeting your distinct needs for each patient. When you work with Kuwata, our technicians are an extension of your team. Your patients are our patients. Your success is our success.

The Kuwata Pan Dent Difference | TECHNOLOGICAL EXCELLENCE

Combining Mastery with the Latest Innovation

At Kuwata Pan Dent, your patients' satisfaction is our top priority. Each day, every team member works to build and maintain meaningful partnerships with our dental professionals. We rise to any occasion to meet your distinct needs for each case. From single tooth replacement to complex full-arch restorations — we are there for you. When you work with Kuwata, we become an extension of your team. Your patients are our patients. Your success is our success. That's the Kuwata difference.

Easy workflows for
Impressions and submissions

A Legacy of Excellence

At Kuwata Pan Dent, your patients' satisfaction is our top priority. We build and maintain meaningful partnerships with dental professionals, meeting your distinct needs for each case. When you work with Kuwata, we are an extension of your team. Your patients are our patients. Your success is our success. That's the Kuwata difference.

Kwuata Pan Dent was founded in 1977 by Masahiro Kuwata, a prosthodontic living legend in the dental industry. Kuwata's mission is to uphold the strict protocols of Japanese craftsmanship, while simultaneously developing innovative ways to improve the bond, strength, and appearance of restorations. His vision and groundwork is just one of the reasons why Kuwata is the laboratory dentists trust.

Our certified technicians are committed to positively impacting the lives of our clients and their patients. We operate each day as your partner — serving as a member of your team. We are large enough to use cutting-edge materials and technologies but still small enough to provide you with the white glove service you deserve.

Insight. Tips of the Trade. Resources.
